- ▶ Factual Fluency
- ▶ Learning Support for Mathematics
- ▶ Math Exploration Week
- ▶ P1 Math Carnival

How you can support your child

1. **Encourage** your child in the learning of Mathematics – celebrate small successes, e.g. when they show improvement in a topic
2. **Thinking** instead of memorising – more important for child to understand why before moving on to the next topic or practice question
3. **Love** for Mathematics – examples in everyday life
